

Washington Flora Checklist

A checklist of the Vascular Plants of Washington State

Hosted by the University of Washington Herbarium

Family: Athyriaceae

2 terminal taxa (species, subspecies, and varieties).

The Washington Flora Checklist aims to be a complete list of the native and naturalized vascular plants of Washington State, with current classifications, nomenclature and synonymy.

Taxa included in the checklist:

- * Native taxa whether extant, extirpated, or extinct.
- * Exotic taxa that are naturalized, escaped from cultivation, or persisting wild.
- * Waifs (e.g., ballast plants, escaped crop plants) and other scarcely collected exotics.
- * Interspecific hybrids that are frequent or self-maintaining.
- * Some unnamed taxa in the process of being described.

Family classifications follow [APG IV](#) for angiosperms, PPG I (J. Syst. Evol. 54:563?603. 2016.) for pteridophytes, and Christenhusz et al. (Phytotaxa 19:55?70. 2011.) for gymnosperms, with a few exceptions. Nomenclature and synonymy at the rank of genus and below follows the [2nd Edition of the Flora of the Pacific Northwest](#) except where superceded by new information.

Accepted names are indicated with blue font; synonyms with black font.
Native species and infraspecies are marked with **boldface** font.

Please note: This is a working checklist, continuously updated. Use it at your discretion.

Created from the Washington Flora Checklist Database on May 19th, 2024 at 12:39pm PST.

Ferns and Lycophytes:

Athyriaceae [HC2] Lady Fern Family

Synonyms: (none)

References: (none)

Athyrium [FNA2, HC, HC2]

Tent. Fl. Germ. 3(1,1): 31, 58. 1799.
lady-fern

Athyrium distentifolium Tausch ex Opiz [HC, HC2]

Kratos 2(1): 14.
alpine lady-fern

Athyrium alpestre (Hoppe) Clairville [FNA2]

ssp. *americanum* (Butters) Hultén [HC2]

Bot. Not. 126(4): 462.
American alpine lady-fern

Athyrium alpestre (Hoppe) Clairville var. *americanum* Butters [FNA2]

Athyrium americanum (Butters) Maxon [KZ99, Peck]

Athyrium distentifolium Tausch ex Opiz var. *americanum* (Butters) Cronquist [VPPNW1, HC]

Athyrium filix-femina (L.) Roth ex Mertens [Abrams, FNA2, HC, HC2, Peck]

Arch. Bot. (Leipzig). 2(1): 106.
lady-fern

ssp. *cyclosorum* (Rupr.) C. Chr. [HC2, ILCB5, KZ99]

Fl. Aleutian Isl. 50
lady fern, northwestern lady fern

Athyrium alpestre (Hoppe) Clairville ex T. Moore var. *cyclosorum* (Rupr.) T. Moore

Athyrium filix-femina (L.) Roth ex Mertens var. *cyclosorum* Rupr. [FNA2]

FNA2: "Athyrium filix-femina var. cyclosorum is most similar to the European var. filix-femina ; it differs in having broader, nearly equilateral pinnules and medial to supramedial sori. The variety is distributed in northwestern North America with disjunct populations in northwestern Quebec and Ontario."
