

Washington Flora Checklist

A checklist of the Vascular Plants of Washington State

Hosted by the University of Washington Herbarium

Family: Blechnaceae

2 terminal taxa (species, subspecies, and varieties).

The Washington Flora Checklist aims to be a complete list of the native and naturalized vascular plants of Washington State, with current classifications, nomenclature and synonymy.

Taxa included in the checklist:

- * Native taxa whether extant, extirpated, or extinct.
- * Exotic taxa that are naturalized, escaped from cultivation, or persisting wild.
- * Waifs (e.g., ballast plants, escaped crop plants) and other scarcely collected exotics.
- * Interspecific hybrids that are frequent or self-maintaining.
- * Some unnamed taxa in the process of being described.

Family classifications follow [APG IV](#) for angiosperms, PPG I (J. Syst. Evol. 54:563?603. 2016.) for pteridophytes, and Christenhusz et al. (Phytotaxa 19:55?70. 2011.) for gymnosperms, with a few exceptions. Nomenclature and synonymy at the rank of genus and below follows the [2nd Edition of the Flora of the Pacific Northwest](#) except where superceded by new information.

Accepted names are indicated with blue font; synonyms with black font.
Native species and infraspecies are marked with **boldface** font.

Please note: This is a working checklist, continuously updated. Use it at your discretion.

Created from the Washington Flora Checklist Database on May 19th, 2024 at 2:39pm PST.

Ferns and Lycophytes:

Blechnaceae [FNA2, HC2] Chain Fern Family, Deer Fern Family

Synonyms: (none)

References: (none)

Struthiopteris [HC2]

hard fern

Struthiopteris spicant (L.) Weiss [Abrams, HC2]

Pl. Crypt. Fl. Gott. 287.

deer fern

Blechnum spicant (L.) Sm. [FNA2, HC]

Blechnum spicant (L.) Sm. ssp. *nipponicum* (Kunze) A. Löve & D. Löve

Woodwardia [FNA2, HC, HC2]

chain-fern

Woodwardia fimbriata Sm. [FNA2, HC, HC2]

Cycl. 38(76).

giant chain fern

Woodwardia chamissoi Brack. [Abrams]
