

# Flora of the Pacific Northwest Checklist

A checklist of the Vascular Plants of the Pacific Northwest  
Hosted by the University of Washington Herbarium

## Family: Aspleniaceae

5 terminal taxa (species, subspecies, and varieties).

The Flora of the Pacific Northwest Checklist aims to be a complete list of the native and naturalized vascular plants of the Pacific Northwest, with current classifications, nomenclature and synonymy.

### Taxa included in the checklist:

- Native taxa whether extant, extirpated, or extinct.
- Exotic taxa that are naturalized, escaped from cultivation, or persisting wild.
- Waifs (e.g., ballast plants, escaped crop plants) and other scarcely collected exotics.
- Interspecific hybrids that are frequent or self-maintaining.
- Some unnamed taxa in the process of being described.

Family classifications follow [APG IV](#) for angiosperms, PPG I (J. Syst. Evol. 54:563-603. 2016.) for pteridophytes, and Christenhusz et al. (Phytotaxa 19:55-70. 2011.) for gymnosperms, with a few exceptions. Nomenclature and synonymy at the rank of genus and below follows the [2nd Edition of the Flora of the Pacific Northwest](#) except where superseded by new information.

Accepted names are indicated with **blue type**, synonyms with **gray type**.

Native species and infraspecies are marked with **bold-face type**.

\*Non-native and introduced taxa are preceded by an asterisk.

**Please note:** This is a working checklist, continuously updated. Use it at your discretion.

# Ferns and Lycophytes:

## Aspleniaceae [FNA2, HC2] Spleenwort Family

### *Asplenium* [FNA2, HC, HC2]

Sp. Pl. 2: 1078. 1753; Gen. Pl. ed. 5, 485, 1754.  
spleenwort

### *Asplenium adulterinum* J. Milde [FNA2, HC2]

Höh. Sporenpfl. Deutschl. 40. 1865.  
ladder spleenwort

### \**Asplenium scolopendrium* L. [FNA2, HC2]

Sp. Pl. 2: 1079. 1753.

\*var. *scolopendrium* [HC2]

### *Asplenium trichomanes* L. [FNA2, HC, HC2]

Sp. Pl. 2: 1080. 1753.  
maidenhair spleenwort

### ssp. *quadrivalens* D.E. Mey. [FNA2, HC2]

Ber. Deutsch. Bot. Ges. 74: 456. 1962.  
maidenhair spleenwort

Tetraploid; taxonomy follows FNA Vol. 2.

### ssp. *trichomanes* [FNA2, HC2]

Sp. Pl. 2: 1080. 1753.  
maidenhair spleenwort

*Asplenium melanoaulon* Willd.

diploid

### *Asplenium viride* Huds. [HC, HC2]

Fl. Angl. (Hudson) 385. 1762.  
green spleenwort

*Asplenium trichomanes-ramosum* L. [FNA2]

FNA2: "Hybridization between *Asplenium trichomanes-ramosum* and *A. trichomanes* produces the fertile allotetraploid *A. adulterinum*, which occurs on Vancouver Island."
