

Flora of the Pacific Northwest Checklist

A checklist of the Vascular Plants of the Pacific Northwest
Hosted by the University of Washington Herbarium

Family: Juglandaceae

4 terminal taxa (species, subspecies, and varieties).

The Flora of the Pacific Northwest Checklist aims to be a complete list of the native and naturalized vascular plants of the Pacific Northwest, with current classifications, nomenclature and synonymy.

Taxa included in the checklist:

- Native taxa whether extant, extirpated, or extinct.
- Exotic taxa that are naturalized, escaped from cultivation, or persisting wild.
- Waifs (e.g., ballast plants, escaped crop plants) and other scarcely collected exotics.
- Interspecific hybrids that are frequent or self-maintaining.
- Some unnamed taxa in the process of being described.

Family classifications follow [APG IV](#) for angiosperms, PPG I (J. Syst. Evol. 54:563-603. 2016.) for pteridophytes, and Christenhusz et al. (Phytotaxa 19:55-70. 2011.) for gymnosperms, with a few exceptions. Nomenclature and synonymy at the rank of genus and below follows the [2nd Edition of the Flora of the Pacific Northwest](#) except where superseded by new information.

Accepted names are indicated with **blue type**, synonyms with **gray type**.

Native species and infraspecies are marked with **bold-face type**.

*Non-native and introduced taxa are preceded by an asterisk.

Please note: This is a working checklist, continuously updated. Use it at your discretion.

Dicots:

Juglandaceae [FNA3, HC2] Walnut Family

**Juglans* [FNA3, HC2]

Sp. Pl. 2: 997. 1753; Gen. Pl. ed. 5, 431, 1754.
walnut

**Juglans ailantifolia* Carrière [HC2]

Rev. Hort. [Paris]. 414. 1878.
Japanese walnut

Naturalized populations documented in Skamania and Skagit counties. Also frequently naturalized in the lower Fraser River valley of southwest British Columbia. Easily confused with *Juglans cinerea*.

**Juglans hindsii* (Jeps.) Jeps. ex R.E.Sm. [FNA3, HC2]

Univ. Calif. Agric. Exp. Sta. Bull. 203: 27. 1909.
northern California walnut

Plants from one site in Yakima County that appear to be associated with homestead. Report of plants spreading from original planting. Also documented spreading downstream from an old homestead and naturalizing along Rock Creek in Klickitat County.

**Juglans nigra* L. [FNA3, HC2]

Sp. Pl. 2: 997. 1753.
black walnut

**Juglans regia* L. [HC2, JPM2]

Sp. Pl. 2: 997. 1753.
English walnut
