

# Washington Flora Checklist

## A checklist of the Vascular Plants of Washington State Hosted by the University of Washington Herbarium

### Family: Cannabaceae

3 terminal taxa (species, subspecies, and varieties).

The Washington Flora Checklist aims to be a complete list of the native and naturalized vascular plants of Washington State, with current classifications, nomenclature and synonymy.

#### Taxa included in the checklist:

- Native taxa whether extant, extirpated, or extinct.
- Exotic taxa that are naturalized, escaped from cultivation, or persisting wild.
- Waifs (e.g., ballast plants, escaped crop plants) and other scarcely collected exotics.
- Interspecific hybrids that are frequent or self-maintaining.
- Some unnamed taxa in the process of being described.

Family classifications follow [APG IV](#) for angiosperms, PPG I (J. Syst. Evol. 54:563-603. 2016.) for pteridophytes, and Christenhusz et al. (Phytotaxa 19:55-70. 2011.) for gymnosperms, with a few exceptions. Nomenclature and synonymy at the rank of genus and below follows the [2nd Edition of the Flora of the Pacific Northwest](#) except where superceded by new information.

Accepted names are indicated with **blue type**, synonyms with **gray type**.

Native species and infraspecies are marked with **bold-face type**.

\*Non-native and introduced taxa are preceded by an asterisk.

**Please note:** This is a working checklist, continuously updated. Use it at your discretion.

Created from the Washington Flora Checklist database on June 5th, 2026 at 12:19am PT.

## Cannabaceae [FNA3, HC2] Hemp Family

FNA3: "Genera in Cannabaceae have sometimes been included in Moraceae (H. A. Gleason 1968); M. L. Fernald (1950) placed them in a separate family, Cannabinaceae. Cannabaceae are wind pollinated. They are indigenous to the temperate Northern Hemisphere, widely cultivated, often introduced, and often ruderal."

### \**Cannabis* [FNA3, HC, HC2]

Sp. Pl. 2: 1027. 1753; Gen. Pl. ed. 5, 453, 1754.  
cannabis, hemp, marijuana

### \**Cannabis sativa* L. [FNA3, HC, HC2]

Sp. Pl. 2: 1027. 1753.  
hemp, marihuana, marijuana

Under Moraceae in H&C.

### *Celtis* [FNA3, HC, HC2]

Sp. Pl. 2: 1043. 1753; Gen. Pl. ed. 5, 467, 1754.  
hackberry

### *Celtis reticulata* Torr. [FNA3, HC, HC2]

Ann. Lyceum Nat. Hist. New York. 2: 247. 1828.  
netleaf hackberry

*Celtis douglasii* Planch.

*Celtis laevigata* Willd. var. *reticulata* (Torr.) L.D. Benson [KZ99]

*Celtis occidentalis* L. var. *reticulata* (Torr.) Sarg.

### \**Humulus* [FNA3, HC, HC2]

Sp. Pl. 2: 1028. 1753; Gen. Pl. ed. 5, 453, 1754.  
hop

### \**Humulus lupulus* L. [FNA3, HC, HC2]

Sp. Pl. 2: 1028. 1753.  
hops

### \*var. *lupuloides* E. Small [FNA3, HC2]

Syst. Bot. 3: 63. 1978.  
hops
