

Washington Flora Checklist

A checklist of the Vascular Plants of Washington State Hosted by the University of Washington Herbarium

Family: Juncaceae

70 terminal taxa (species, subspecies, and varieties).

The Washington Flora Checklist aims to be a complete list of the native and naturalized vascular plants of Washington State, with current classifications, nomenclature and synonymy.

Taxa included in the checklist:

- Native taxa whether extant, extirpated, or extinct.
- Exotic taxa that are naturalized, escaped from cultivation, or persisting wild.
- Waifs (e.g., ballast plants, escaped crop plants) and other scarcely collected exotics.
- Interspecific hybrids that are frequent or self-maintaining.
- Some unnamed taxa in the process of being described.

Family classifications follow [APG IV](#) for angiosperms, PPG I (J. Syst. Evol. 54:563-603. 2016.) for pteridophytes, and Christenhusz et al. (Phytotaxa 19:55-70. 2011.) for gymnosperms, with a few exceptions. Nomenclature and synonymy at the rank of genus and below follows the [2nd Edition of the Flora of the Pacific Northwest](#) except where superseded by new information.

Accepted names are indicated with **blue type**, synonyms with **gray type**.

Native species and infraspecies are marked with **bold-face type**.

*Non-native and introduced taxa are preceded by an asterisk.

Please note: This is a working checklist, continuously updated. Use it at your discretion.

Created from the Washington Flora Checklist database on April 29th, 2026 at 3:11am PT.
Available online at <https://burkeherbarium.org/waflora/>

Comments and questions should be addressed to the checklist administrators:

David Giblin (dgiblin@uw.edu)

Monocots:

Juncaceae [FNA22, HC, HC2] Rush Family

Juncus [FNA22, HC, HC2]

Sp. Pl. 1: 325. 1753; Gen. Pl. ed. 5; 152, 1754.
rush

Juncus acuminatus Michx. [FNA22, HC, HC2]

Flora Boreali-Americana. 1: 192. 1803.
knotty leaf rush, sharp-fruited rush, tapered rush

Juncus acuminatus Michx. var. *legitimus* Engelm.
Juncus pallescens E. Mey. ex Buchenau
Juncus pondii A.W. Wood

Juncus alpinoarticulatus Chaix [FNA22, HC2]

Hist. Pl. Dauphiné. 1: 378. 1786.
alpine rush, northern rush

Juncus alpinoarticulatus Chaix ssp. *americanus* (Farw.) Hämet---Ahti
Juncus alpinoarticulatus Chaix ssp. *fuscescens* (Fernald) Hämet---Ahti
Juncus alpinoarticulatus Chaix ssp. *nodulosus* (Wahlenb.) Hämet-Ahti
Juncus alpinus Vill. [HC], illegitimate name
Juncus richardsonianus Schult. & Schult.f.

A. A. Reznicek notes there are typification problems with the Chaix name proposed by Hämet-Ahti (1980b); here it is retained until another name is proposed in the literature taxonomy here follows FNA (Brooks and Clemants 2000), not Lindquist (1932) or Hämet-Ahti (1986) FNA22: "Several attempts have been made to separate subspecies or varieties of this widespread and variable species. In one study, five varieties were recognized, with four in North America (B. Lindquist 1932) . In another, at least six subspecies were recognized with two in North America (L. Hämet-Ahti 1986). The variation we .have encountered does not fit nicely into the subspecies Hämet-Ahti has recognized, and until a full account of the variation throughout the range of the species is presented, we are not recognizing subspecific or varietal divisions of this species. Recent evidence suggests that this species may be one of the parents of the tetraploid *Juncus articulatus*. *Juncus alpinus* hybridizes with *J. brevicaudatus* (= *J. Å´ xgracilescens* J. Hermann), *J. articulatus* (= *J. Å´ xalpiniformis* Fernald), *J. nodosus* (= *J. Å´ xnodosiformis* Fernald), and *J. torreyi* (= *JuncusJ. xstuckeyi* Reinking)."

**Juncus antheratus* (Wiegand) R.E. Brooks [FNA22, HC2]

Novon. 9: 11. 1999.
giant path rush

Juncus macer Gray var. *antheratus* (Wiegand) F.J. Herm.
Juncus tenuis Willd. var. *antheratus* Wiegand

Can be confused with *J. tenuis*, but is much larger and has slightly smaller fruits (Brooks and Whittemore 1999).

Juncus articulatus L. [FNA22, HC, HC2]

Sp. Pl. 1: 327. 1753.
joint-leaved rush, jointed rush

Juncus articulatus L. var. *obtusatus* Engelm.
Juncus articulatus L. var. *stolonifer* (Wohleben) House
Juncus lampocarpus Ehrh. ex Hoffm.

ssp. *articulatus* [HC2, JPM2]

Sp. Pl. 1: 327. 1753.
jointed rush, jointleaf rush

A second subsp. is found in eastern Asia. FNA22: "*Juncus articulatus* hybridizes with *J. brevicaudatus*

(= *J. xfulvenscens* Fernald), *J. alpinus* (= *J. xalpiniformis* Fernald), *J. nodosus*, and *J. canadensis*. *Juncus articulatus* var. *obtusatus* Engelman appears to be intermediate with *J. alpinus*. It has spreading inflorescence branches but obtuse inner tepals. This may represent a backcross with *J. alpinus*. Recent evidence suggests that *J. alpinus* is a polyploid species with *J. articulatus* as one of its parents."

Juncus balticus Willd. [HC, HC2]

Ges. Naturf. Freunde Berlin Mag. Neuesten Entdeck. Gesamten Naturk. 2: 298. 1809.

Baltic rush

(see also *Juncus breweri*)

Juncus arcticus Willd. var. *balticus* (Willd.) Trautv. [FNA22]

ssp. *ater* (Rydb.) Snogerup [HC2]

Preslia 74(3): 258. 2002.

Baltic rush, valley rush

Juncus balticus Willd. ssp. *balticus*, misapplied

Juncus balticus Willd. ssp. *littoralis* (Engelm.) Snogerup, misapplied

Juncus balticus Willd. var. *balticus* [HC], misapplied

Juncus balticus Willd. var. *littoralis* Engelm., misapplied

Juncus balticus Willd. var. *montanus* Engelm. [HC]

Juncus balticus Willd. var. *vallicola* Rydb. [HC]

Juncus vallicola (Rydb.) Rydb.

The use of *J. arcticus* to include *J. balticus* (as treated in FNA22) is not accepted by European authors.

Juncus biglumis L. [FNA22, HC, HC2]

Sp. Pl. 1: 328. 1753.

twin rush, two-flowered rush

Recently (2025) collected in Okanogan County.

Juncus bolanderi Engelm. [FNA22, HC, HC2]

2:436, 470. 1868.

Bolander's rush

Juncus bolanderi Engelm. var. *riparius* Jeps.

****Juncus brachycarpus*** Engelm. [FNA22, HC2]

Manual of Botany of the Northern United States (ed. 5). 542. 1867.

short-fruit rush

Juncus breweri Engelm. [HC2, IFBC]

Transactions of the Academy of Science of St. Louis 2: 440-441. 1866.

Brewer's rush, salt rush

Juncus lesueurii Bol. [FNA22, HC, HC2], misapplied

Juncus lesueurii orth. (misspelled, see Lint 1977, pp 149-150) The epithet *lescurii* was published by Bolander in 1862 as "*leseurii*", and indexed "*lesueurii*," both are typographical errors for the latinized version of Leo Lesquereaux, corrected under Article 73 of the ICBN to *lescurii*, which is how Bolander spelled the epithet in his 1870 catalogue of plants in the San Francisco area (Lint 1977). *Juncus lescurii* is endemic to the San Francisco area.

Juncus bufonius L. [FNA22, HC, HC2]

Sp. Pl. 1: 328. 1753.

toad rush

var. *bufonius* [HC2, JPM2]

Sp. Pl. 1: 328. 1753.

toad rush

FNA22: "Nearly worldwide, *Juncus bufonius* is found essentially throughout North America except north of the Alaskan and Canadian tTaiga. *Juncus bufonius* is a highly polymorphic complex that is poorly understood systematically. Insufficient evidence exists upon which to base the segregation of

the plethora of taxa that have been recognized out of this group in the past."

**var. congestus* Wahlb. [HC2, JPM2]

Fl. Gothob. 38. 1820.

clustered toad rush

var. occidentalis F.J. Herm. [HC2, JPM2]

Madroño 25: 104. 1978.

western toad rush

Juncus sphaerocarpus Nees, misapplied

**Juncus bulbosus* L. [FNA22, HC2]

Sp. Pl. 1: 327. 1753.

bulbous rush, spreading rush

Juncus kockii F.W. Schultz

Juncus supinus Moench [HC]

**Juncus canadensis* J. Gay ex Laharpe [FNA22, HC2]

Essai Monogr. Jonc. 46. 1825.

Canadian rush

Juncus canadensis J. Gay ex Laharpe var. *longicaudatus* Engelm.

Juncus canadensis J. Gay ex Laharpe var. *sparsiflorus* Fernald

Juncus longicaudatus (Engelm.) Mack.

Juncus polycephalus Michx. var. *paradoxus* Torr.

FNA22: "Two varieties and two forms occurring within the flora have been recognized (M. L. Fernald 1945b). *Juncus canadensis* var. *sparsiflorus* has stiffly erect inflorescence branches, and the flowers are generally longer than those of var. *canadensis*. These varieties simply serve to give name to parts of the broad morphologic range of variation encountered in *J. canadensis* and do not appear to represent any distinct biological entities. *Juncus canadensis* and the following three species form a distinctive group: they have been variously treated as species (as here), varieties of *J. canadensis*, or as two species, *J. canadensis* and a polymorphic species, *J. brachysephalus*, encompassing the other three species (B. Boivin 1967--1979, part IV). Most of the species are easily recognized at their extremes but show a fair amount of overlap."

**Juncus compressus* Jacq. [FNA22, HC2]

Enumeratio Stirpium Pleraque, quae sponte crescung in agro Vindobonensi. 60, 235. 1762.

round-fruit rush

Juncus confusus Coville [FNA22, HC, HC2]

Proceedings of the Biological Society of Washington. 10: 127. 1896.

Colorado rush

Juncus exilis Osterh.

**Juncus conglomeratus* L. [HC2]

Sp. Pl. 1: 326. 1753.

compact rush

Juncus conglomeratus L. var. *subuliflorus* (Drejer) Asch. & Graebn.

Taxonomy follows Kirschner et al. (2002).

Juncus covillei Piper [FNA22, HC, HC2, JPM2]

Contributions from the U. S. National Herbarium. 11: 182. 1906.

Coville's rush

Juncus covillei Piper var. *covillei* [FNA22, HC]

Juncus covillei Piper var. *obtusatus* C.L. Hitchc. [FNA22, HC]

Juncus falcatus E. Mey. var. *paniculatus* Engelm.

Juncus falcatus E. Mey. var. *prominens* Buchenau

Juncus latifolius (Engelm.) Buchenau var. *paniculatus* (Engelm.) Buchenau

Juncus obtusatus Engelm., homonym (illegitimate)

**Juncus diffusissimus* Buckley [FNA22, HC2]

Proceedings of the Academy of Natural Sciences of Philadelphia. 14: 9. 1862.
diffuse rush, slimpod rush

Juncus drummondii E. Mey. [FNA22, HC, HC2]

Flora Rossica. 4: 235. 1853.

Drummond's rush, threeflower rush

Juncus compressus Jacq. var. *subtriflorus* E. Mey.

Juncus drummondii E. Mey. var. *drummondii* [HC]

Juncus drummondii E. Mey. var. *longifructus* H. St. John

Juncus drummondii E. Mey. var. *subtriflorus* (E. Mey.) C.L. Hitchc. [HC]

Juncus pauperculus Schwarz

Juncus subtriflorus (E. Mey.) Coville

FNA22: "Plants with capsules distinctly longer than the perianth have been referred to as *Juncus drummondii* var. *subtriflorus*. Those plants frequently occur sympatrically with *J. drummondii* (strict sense) through most of its range, leaving considerable doubt as to the value of recognizing such variation."

Juncus dudleyi Wiegand [FNA22, HC2]

Bulletin of the Torrey Botanical Club. 27: 524. 1900.

Dudley's rush

Juncus tenuis Willd. var. *dudleyi* (Wiegand) F.J. Herm. [HC]

Juncus tenuis Willd. var. *uniflorus* Farw.

Juncus effusus L. [FNA22, HC, HC2]

Sp. Pl. 1: 326. 1753.

common rush, Pacific rush, soft rush

(see also *Juncus laccatus*)

*ssp. *effusus* [HC2]

Sp. Pl. 1: 326. 1753.

soft rush

Juncus effusus L. var. *compactus* Lej. & Courtois [HC]

Juncus effusus L. var. *effusus*

Juncus effusus L. var. *subglomeratus* DC.

Taxonomy follows Kirschner et al. (2002). A common introduction on both the east and west sides of the Cascades.

ssp. *pacificus* (Fernald & Wiegand) Piper & Beattie [HC2]

Brittonia 55(2): 152. 2003.

Pacific rush

Juncus effusus L. var. *pacificus* Fernald & Wiegand [HC]

Taxonomy follows Zika (2003). The common native in western lowland WA, with a disjunct population in the Blue Mountains area.

*ssp. *solutus* (Fernald & Wiegand) Hämet-Ahti [HC2]

Ann. Bot. Fenn. 17: 188. 1980.

eastern soft rush

Juncus effusus L. var. *solutus* Fernald & Wiegand

Juncus ensifolius Wikstr. [FNA22, HC, HC2, JPM2]

Kongl. Vetenskaps Academiens Handlingar. 2: 274. 1823.

dagger rush, daggerleaf rush

(see also *Juncus saximontanus*)

Juncus ensifolius Wikstr. var. *ensifolius* [FNA22, HC]

Juncus falcatus E. Mey. [FNA22, HC, HC2]

Syn. Luzul. 34. 1823.

sickle-leaved rush

ssp. *sitchensis* (Buchenau) Hultén [HC2, JPM2]

Acta Univ. Lund. 2, 39, no. 1: 427. 1943.

Alaskan sickle-leaved rush

Juncus falcatus E. Mey. ssp. *falcatus*, misapplied

Juncus falcatus E. Mey. var. *falcatus* [FNA22], misapplied

Juncus falcatus E. Mey. var. *sitchensis* Buchenau [FNA22, HC]

Juncus menziesii R. Br. ex Hook.

Typical subsp. *falcatus* is native on the coast of central California and in se Australia.

***Juncus filiformis* L. [FNA22, HC, HC2]**

Sp. Pl. 1: 326. 1753.

thread rush

***Juncus gerardi* Loisel. [HC2]**

J. Bot. (Desvaux) ii. (1809) 284. 1809.

black rush, mud rush

Juncus bulbosus L. var. *gerardii* (Loisel.) A. Gray

Juncus gerardii Loisel. [FNA22, HC], orthographic variant

ssp. *gerardi* [HC2]

black grass, Gerard's rush, mud rush

Juncus fucensis H. St. John

Juncus gerardii Loisel. ssp. *gerardii* [JPM2], orthographic variant

Juncus gerardii Loisel. var. *gerardii* [KZ99], orthographic variant

Juncus gerardii Loisel. var. *pedicellatus* Fernald [KZ99]

The correct spelling of the epithet is the original "gerardi" and not "gerardii." See IPNI

***Juncus hemiendytus* F.J. Herm. [FNA22, HC, HC2, Peck]**

Leaflets of Western Botany. 5: 118. 1948.

dwarf rush

var. *hemiendytus* [FNA22, HC2]

Leaflets of Western Botany. 5: 118. 1948.

dwarf rush, Hermann's dwarf rush

Juncus brachystylus (Engelm.) Piper var. *uniflorus* (Engelm.) M. Peck

Juncus triformis Engelm. var. *uniflorus* Engelm.

***Juncus hesperius* (Piper) Lint [HC2]**

Preslia 74(3): 262. 2002.

bog rush, coastal rush

Juncus effusus L. var. *bruneus* Engelm. [JPM]

***Juncus howellii* F.J. Herm. [FNA22, HC, HC2]**

Leaflets of Western Botany. 5: 182. 1949.

Howell's rush

reported for Washington by WNHP

****Juncus inflexus* L. [FNA22, HC2]**

Sp. Pl. 1: 326. 1753.

blue rush

Juncus glaucus Ehrh. ex Sibth.

Recently (2017) collected in Klickitat County.

***ssp. *inflexus* [HC2]**

blue rush

***Juncus interior* Wiegand [FNA22, HC, HC2]**

Bulletin of the Torrey Botanical Club. 27: 516. 1900.

inland rush

Juncus interior Wiegand var. *interior* [KZ99]

Juncus tenuis Willd. var. *arizonicus* (Wiegand) F.J. Herm. [KZ99]
Juncus tenuis Willd. var. *neomexicanus* (Wiegand) F.J. Herm. [KZ99]

***Juncus kelloggii* Engelm. [FNA22, HC, HC2]**

Trans. Acad. Sci. St. Louis ii. (1868) 494. 1868.
Kellogg's rush
(see also *Juncus hemiendytus* var. *hemiendytus*, *Juncus uncialis*)

Juncus triformis Engelm. var. *brachystylus* Engelm.

***Juncus laccatus* Zika [HC2]**

Preslia 74(3): 261-263. 2002.
shiny rush
(see also *Juncus hesperius*)

Juncus effusus L. var. *gracilis* Hook. [HC]

***Juncus longistylis* Torr. [FNA22, HC, HC2]**

Report on the United States and Mexican Boundary Survey, ... 2(1): 223. 1859.
long-styled rush

Juncus longistylis Torr. var. *longistylis* [KZ99]

***Juncus mertensianus* Bong. [FNA22, HC, HC2]**

Mém. Acad. Imp. Sci. St.-Pétersbourg, Sér. 6, Sci. Math. 2: 167. 1833.
Mertens' rush

Juncus duranii Ewan

Juncus mertensianus Bong. var. *duranii* (Ewan) F.J. Herm.

Juncus mertensianus Bong. var. *filifolius* Suksd.

Juncus slwookoorum S. Young

FNA22: "This species passes into *Juncus nevadensis* and has often been combined with that species (F. J. Hermann 1964). The two species can generally be separated, and we are following those treatments (F. J. Hermann 1975; A. Cronquist et al. 1972+, vol. 6)."

***Juncus nevadensis* S. Watson [FNA22, HC, HC2]**

Proceedings of the American Academy of Arts and Sciences. 14: 303. 1879.
Nevada rush

var. *inventus* (L.F. Hend.) C.L. Hitchc. [HC, HC2, JPM2]

Vasc. Pl. Pacif. N. W. [C.L. Hitchcock & al.] 1: 201. 1969.
dune rush, Oregon rush

Recently collected on Vancouver Island and on the outer coast of Washington.

var. *nevadensis* [HC, HC2]

Proceedings of the American Academy of Arts and Sciences. 14: 303. 1879.
Nevada rush, Sierra rush

Juncus badius Suksd. [Abrams]

Juncus columbianus Coville [Peck]

Juncus nevadensis S. Watson var. *badius* (Suksd.) C.L. Hitchc. [HC]

Juncus nevadensis S. Watson var. *columbianus* (Coville) H. St. John [HC]

***Juncus nodosus* L. [FNA22, HC, HC2]**

Sp. Pl., ed. 2. 1: 466. 1762.
knotted rush, tuberous rush

Juncus nodosus L. var. *meridionalis* F.J. Herm.

Juncus nodosus L. var. *nodosus* [KZ99]

Juncus rostkovii E. Mey.

***Juncus occidentalis* (Coville) Wiegand [FNA22, HC2]**

Bulletin of the Torrey Botanical Club. 27: 521. 1900.
western rush

Juncus tenuis Willd. var. *congestus* Engelm. [HC]

Juncus tenuis Willd. var. *occidentalis* Coville

A west-side equivalent of *J. confusus*, often misidentified as *J. tenuis*, but differing in its retuse capsules and brown-striped tepals, and found in wetter habitats (Coville 1896; Wiegand 1900).

***Juncus orthophyllus* Coville [FNA22, HC, HC2]**

Contributions from the U. S. National Herbarium. 4: 207. 1893.
straight-leaved rush

Juncus latifolius (Engelm.) Buchenau
Juncus longistylis Torr. var. *latifolius* Engelm.

***Juncus oxymeris* Engelm. [FNA22, HC, HC2]**

Rocky Mountain rush

Juncus ensifolius Wikstr. var. *brunnescens* (Rydb.) Cronquist [IMF6]
Juncus ensifolius Wikstr. var. *montanus* (Engelm.) C.L. Hitchc. [FNA22, HC]
Juncus tracyi Rydb. [HC, KZ99]

***Juncus supiniformis* Engelm. [FNA22, HC, HC2]**

Transactions of the Academy of Science of St. Louis 2: 461-462. 1868.
hair-leaved rush, spreading rush

Juncus oreganus S. Watson [Abrams]
Juncus paucicapitatus Buchenau

FNA22: "The northern California and southern Oregon populations (*Juncus supiniformis* in the strict sense) form long filiform leaves before flowering, are shorter, and have smaller flowers than the northern populations. Except for the filiform leaves, the variation in sizes appears to follow a rough latitudinal cline with the largest plants and largest flowers in Alaska. Flowers of *Juncus supiniformis* often form bulbils."

***Juncus tenuis* Willd. [FNA22, HC, HC2]**

Sp. Pl. 2(1): 214. 1799.

path rush, poverty rush, slender rush
(see also *Juncus dudleyi*, *Juncus occidentalis*)

Juncus bicornis Michx.
Juncus macer Gray
Juncus tenuis Willd. var. *bicornis* (Michx.) E. Mey.
Juncus tenuis Willd. var. *multicornus* E. Mey.
Juncus tenuis Willd. var. *tenuis* [HC]
Juncus tenuis Willd. var. *williamsii* Fernald

FNA22: "Juncus tenuis occurs throughout North America. It is particularly abundant in northeastern United States and eastern Canada, although infrequent in the south and west. Through the use of isozyme electrophoresis, hybridization can be demonstrated between various members of the Juncus tenuis complex, including Juncus tenuis, J. anthelatus, J. interior, J. secundus, and J. dichotomus (R. E. Brooks, unpubl.). Juncus xxoronensis is thought to be a hybrid between J. tenuis and J. vaseyi in the northeast."

Luzula kamtschadalarum (Sam.) Gorodkov

Luzula unalaschkensis (Buchenau) Satake, orthographic variant

Luzula unalaschkensis (Buchenau) Satake ssp. *kamtschadalarum* (Sam.) Tolmachev

FNA22: "In *Luzula arcuata* subsp. *unalaschkensis* the sheath throats are rounded and densely pilose; basal leaves are flat with pubescent margins."

**Luzula campestris* (L.) DC. [FNA22, HC, HC2]

Fl. France, ed. 3. 3: 161. 1805.

field woodrush

(see also *Luzula cascadiensis*, *Luzula comosa*, *Luzula macrantha*, *Luzula multiflora*, *Luzula subsessilis*)

Juncus campestris L.

FNA22: "*Luzula campestris* may occur rarely elsewhere in Canada and the United States in lawns and cleared places (collected in Massachusetts in the 1920s). A common European species, the name is used in our floras for almost every species of the "multiflora--campestris" complex."

*ssp. *campestris* [HC2]

In J. Lamarck and A. P. de Candolle, Fl. France, ed. 3. 3: 161. 1805.

field woodrush

Luzula cascadiensis Zika [HC2]

Phytotaxa 192(4): 204. 2015.

Cascades woodrush

Luzula comosa E. Mey. [FNA22, HC2]

Syn. Luzul. 21. 1823.

Pacific woodrush

Luzula congesta (Thuill.) Lej., misapplied

var. *comosa* [HC2, JPM2]

pale woodrush

Luzula campestris (L.) DC. var. *congesta* (Thuill.) E. Mey. [HC], misapplied

Luzula multiflora (Ehrh.) Lej. ssp. *congesta* Hyl., misapplied

Luzula multiflora (Ehrh.) Lej. var. *comosa* (E. Mey.) H. St. John [Peck]

Luzula multiflora (Ehrh.) Lej. var. *congesta* W.D.J. Koch, misapplied

var. *laxa* Buchenau [HC2, JPM2]

Pflanzenr. (Engler) 4, Fam. 36: 83. 1906.

Pacific woodrush

**Luzula forsteri* (Sm.) DC. [HC2]

Syn. Pl. Fl. Gall. 150. 1806.

southern woodrush

*ssp. *forsteri* [HC2]

southern woodrush

Luzula hitchcockii Hämet-Ahti [FNA22, HC, HC2]

Annales Botanici Fennici. 8: 368. 1971.

Hitchcock's woodrush, smooth woodrush

Luzula glabrata (Hoppe ex Rostk.) Desv., misapplied

Luzula glabrata (Hoppe ex Rostk.) Desv. var. *hitchcockii* (Hämet-Ahti) Dorn [KZ99]

FNA22: "Although *Luzula hitchcockii* has been reported from California, no convincing specimens have been seen by this author. The species resembles the European *L. glabrata* (Hoppe) Desvaux very closely; however, it is readily distinguished from all other North American species. Plants may be heavily infested with *Ustilago vujickii* Oudemans. and Beijerinck. complete last names??, which considerably alters their

usual appearance."

Luzula macrantha (S. Watson) Zika & B.L. Wilson [HC2]

Phytotaxa 192(4): 217. 2015.

large-anthered woodrush, large-flowered woodrush, prairie woodrush

Luzula multiflora (Ehrh.) Lej. [FNA22, HC2]

Flore des Environs de Spa. 1: 169. 1811.

common woodrush

Luzula campestris (L.) DC. var. *frigida* Buchenau [HC]

Luzula campestris (L.) DC. var. *multiflora* (Ehrh.) ?elak. [HC]

Luzula multiflora (Ehrh.) Lej. ssp. *frigida* (Buchenau) V.I. Krecztowicz [FNA22], misapplied

Luzula multiflora (Ehrh.) Lej. ssp. *frigida* (Buchenau) V.I. Krecztowicz [FNA22]

Luzula multiflora (Ehrh.) Lej. ssp. *multiflora* [FNA22]

Luzula multiflora (Ehrh.) Lej. var. *multiflora* [KZ99]

The most common meadow species in WA, montane or lowlands.

Luzula parviflora (Ehrh.) Desv. [FNA22, HC, HC2]

J. Bot. (Desvaux). 1: 144. 1808.

small-flowered woodrush

(see also *Luzula piperi*)

Juncus parviflorus Ehrh.

Luzula divaricata S. Watson [FNA22, HC, HC2], misapplied

Luzula fastigiata E. Mey. [KZ99]

Luzula parviflora (Ehrh.) Desv. ssp. *fastigiata* (E. Mey.) Hämet-Ahti [KZ94]

Luzula parviflora (Ehrh.) Desv. ssp. *melanocarpa* (Michx.) Hämet-Ahti

Luzula parviflora (Ehrh.) Desv. var. *melanocarpa* (Michx.) Buchenau [Peck]

FNA22: "The base of the culm of *Luzula parviflora* is often reddish and often distinctly so at the proximal internodes."

Luzula piperi (Coville) M.E. Jones [FNA22, HC, HC2]

Bull. Biol. Ser. Bull. State Univ. Montana. 15: 22. 1910.

Piper's woodrush

Juncoides piperi Coville

Luzula wahlenbergii Rupr. [FNA22], misapplied

Luzula wahlenbergii Rupr. ssp. *piperi* (Coville) Hultén

Luzula spicata (L.) DC. [FNA22, HC, HC2]

Fl. France, ed. 3. 1: 161. 1805.

spiked woodrush

Juncus spicatus L.

ssp. *spicata* [HC2]

In J. Lamarck and A. P. de Candolle, Fl. France, ed. 3. 1: 161. 1805.

spiked woodrush

FNA22: "The culms of *Luzula spicata* are thick and reddish with bases extending 1--8 cm into the soil; sheath throats are densely hairy; basal leaves are erect, linear, and channeled; inflorescence bracts are conspicuous and often exceed glomerules; and bracteoles have narrow and extended apices."

Luzula subsessilis (S. Watson) Buchenau [HC2, IFBC]

Oesterreichische Botanische Zeitschrift 48: 290. 1898.

short-stalked wood-rush

Often confused with *L. comosa*.
